Profile Summary

Dedicated and knowledgeable Animal Behaviorist with over 10 years of experience in analyzing animal behaviors and developing effective training programs. Skilled in research methodologies and passionate about animal welfare and conservation. Proven track record in leading behavioral studies that contributed to successful wildlife conservation efforts.

Work Experience

Senior Animal Behaviorist

Wildlife Conservation Society

1st Jan, 2016 - Present

- Led a research team that analyzed the behavioral patterns of over 50 endangered species, increasing understanding of species-specific needs.
- Developed and implemented enrichment programs that improved animal welfare and reduced stress-related behaviors by 30%.
- Collaborated with international conservationists to establish protocols for reintroducing species into native habitats.

Animal Behavior Research Specialist

National Geographic Society

1st Jun, 2012 - 31st Dec, 2015

- Conducted extensive field research that led to two peer-reviewed publications focused on animal communication and social structures.
- Significantly contributed to a documentary series by providing comprehensive insights into animal behavior, reaching an audience of over 1 million viewers.
- Designed and executed a project that studied the impact of environmental changes on migration patterns.

Education

Harvard University

PhD in Animal Behavior

1st Sep, 2008 - 31st May, 2012

University of California, Davis

Bachelor of Science in Zoology

1st Sep, 2004 - 31st May, 2008

Skills

Behavioral Analysis, Research Methodologies, Presentation Skills, Animal Welfare, Conservation Strategies, Data Interpretation

Notable Projects
