Profile Summary

Experienced and innovative architect with over 10 years designing and managing architectural projects, ranging from residential buildings to commercial complexes. Skilled in leading teams, fostering client relationships, and delivering creative solutions that exceed client expectations while staying within budget and on schedule. Adept at project management, sustainable design, and application of advanced technology for modern architectural challenges.

Work Experience

Senior Architect

Gensler

January 2015 - Present

- Managed and completed over 20 architectural projects valued at over \$200 million, consistently delivering them on time and within budget.
- Led a cross-functional team of 15 architects, engineers, and designers to win the 2020 National Architecture Award for Innovative Design.
- Developed sustainable design strategies that reduced energy consumption by 25% for a major commercial project.

Architect

SOM (Skidmore, Owings & Merrill)

June 2010 - December 2014

- Collaborated with clients, contractors, and engineering teams to complete a 500,000 sq ft mixed-use building, resulting in a 30% increase in community engagement.
- Implemented cutting-edge architectural technologies that optimized project efficiency by 18%.
- Designed a LEED-certified office building, achieving 15% reduction in water usage and incorporation of renewable energy sources.

Education

Harvard University
